Green Heroes Day 26 February 2024

On a bright and bustling day at Dwi Emas International School, the atmosphere was charged with enthusiasm and a sense of purpose as students gathered for the much-anticipated Green Heroes Day. This event, which aimed to celebrate and promote environmental stewardship among the younger generation, featured an impressive lineup of activities and speakers that left a lasting impact on all participants. It was emceed by four outstanding Biosphere students: Giselle Wong, Charmaine Yong, Cyrus Ng and Chelsea Lee.

Environmental Talk by Professor Dominic Foo

A highlight of the event was the enlightening talk delivered by Professor Dominic Foo from Nottingham University. Professor Foo, a renowned expert in environmental engineering, captivated the audience with his insights into climate change, current environmental challenges and the importance of collective action. His engaging presentation not only educated but also inspired students to think critically about their role in preserving the environment.

Green Heroes Day 26 February 2024

Student Projects Showcase

The heart of Green Heroes Day was undeniably the student projects. From innovative recycling solutions to biodiversity conservation initiatives, students showcased their passion and creativity through a variety of environmental projects. Each display booth was a testament to their dedication to making a positive impact on the planet, offering visitors a glimpse into the future of sustainable practices.

Forum with Environmental Leaders

Another key feature of Green Heroes Day was the panel discussion with distinguished environmental leaders. Mr. Bakhtiar from the City Council (MBSA), Jacklynnd co-founder of Zero Waste Earth Store, as well as Ryan and Joshua from The Integrated Farmers (our Biosphere Consultants) shared their expertise and experiences in sustainability efforts. Their diverse perspectives and practical advice provided invaluable guidance to students eager to make a difference in their communities.

Green Heroes Day 26 February 2024

Mini Petting Zoo by TheMINs@KD

Adding a touch of charm and education, TheMINs@KD brought their mini petting zoo to the school grounds. This interactive experience allowed students to get up close with various animals, fostering a deeper appreciation for wildlife and the importance of biodiversity conservation.

Workshops and Exhibitions

Throughout the day, external exhibitors such as the City Council (MBSA), The Mins, and Zero Waste Earth Store engaged students with interactive exhibitions and workshops. Zero Waste Malaysia conducted a hands-on waste management workshop with primary students, empowering them with practical skills to reduce waste and promote recycling in their daily lives.

Green Heroes Day 26 February 2024

Green Heroes Day at Dwi Emas International School was not just an event but a powerful catalyst for change. It united students, educators, and environmental advocates in a shared commitment to sustainable living and conservation. By showcasing innovative projects, hosting insightful discussions, and providing hands-on experiences, the event empowered students to become active agents of change in their communities and beyond.

As the day drew to a close, the spirit of environmental stewardship continued to resonate throughout the school. Green Heroes Day not only inspired students to think creatively about environmental issues but also equipped them with the knowledge and motivation to turn their ideas into impactful actions. With such dedicated efforts, the future of our planet looks brighter than ever.

Green Heroes Day: Connecting Students with Real-World Leaders

In a bid to inspire and educate the next generation about environmental sustainability, Green Heroes Day at Dwi Emas International School brought together a diverse panel of esteemed guests from various fields. The event aimed to bridge the gap between classroom learning and real-world application, offering students a glimpse into the impactful work being done in the realm of environmental conservation.

Among the distinguished guests was Dr Faizal Hamid, Assistant Vice President, Industry Development Division Bioeconomy Corporation. Dr. Faizal shared insights into innovative technologies and initiatives that are shaping the future of sustainable development. His expertise shed light on how scientific advancements can contribute to environmental preservation.

Other VIP guests from the real world industry including Joshua Teo, General Manager of Denai Alam Recreational and Riding Club (DARC), Anne Tham, founder and CEO of Ace EdVenture, and Melinda Lim, Group Chief Academic Officer of Ace EdVenture inspiring the next generation of environmental leaders with their expertise and vision. Green Heroes Day was a testament to the power of collaboration between educational institutions and industry leaders in shaping a greener future.

MBSA Supports Green Heroes Day: A Commitment to Sustainable Waste Management

The Shah Alam City Council (MBSA) showcased its commitment to sustainability during the Green Heroes Day event. Setting up an engaging booth, MBSA highlighted its innovative projects and initiatives aimed at addressing food waste within the city.

One of the standout features of their display was the food waste collection program specifically designed for restaurants in Shah Alam. This initiative encourages local eateries to participate in responsible waste management by collecting their food scraps. Rather than ending up in landfills, these organic materials are transformed into nutrient-rich compost, which is then redistributed to the community at no cost.

The MBSA booth not only provided valuable information about this program but also demonstrated the tangible impact of their efforts. Visitors were encouraged to learn about the composting process and its benefits for soil health and sustainable gardening. By transforming food waste into a resource, MBSA is not only reducing waste but also promoting environmental stewardship among residents.

This initiative aligns with global sustainability goals, emphasizing the importance of circular economy practices. By converting food waste into compost, MBSA fosters a greener Shah Alam, contributing to cleaner streets and healthier ecosystems.

The support from MBSA during Green Heroes Day underscores their dedication to empowering the community and promoting eco-friendly practices. Through collaborative efforts like these, the city council is paving the way for a more sustainable future, inspiring others to follow suit and become active participants in environmental conservation.
