

Why is **ENGLISH**
EXPERIENCE Effective?

- ✓ Anchors the learning through experiencing life and the language.
- ✓ Based on real world activities.

ENGLISH EXPERIENCE

The Natural Way

The ACE Approach:

Reading and Speaking the Natural Way

Forget the conventional English curriculum that spans 11 school years.
ACE found the **ultimate hack** to fast-track English learning

ACE's English Experience is more than a programme; it's a dynamic, inclusive journey fostering language growth, creativity, and critical thought — essential life skills cultivated in a fun, interactive environment.

UNLEASHING GREATNESS IN EVERY CHILD ©

In many non-native English-speaking countries, English is taught as a Second Language (ESL), with a heavy emphasis on grammar, comprehension, vocabulary, and template-based writing. Despite more than a decade of learning English in school, some students still struggle with the language.

When I lived in Hong Kong, I attended 8 years of primary and secondary English classes. English isn't the first language there, so I couldn't practise speaking it outside of class.

Ginny Wong, Hong Kong

Before coming to this school, I had taken English tuition classes for the past 13 years, but I couldn't read or write well.

Selena Wong, Hong Kong

THE KEY TO ENGLISH MASTERY

Think about it. In countries where English is the native language, no one learns to speak it fluently by starting with ESL. Here, students become proficient by using the language actively and continuously in diverse contexts.

When I'm in school, I'm motivated to speak English!

Nina Saito, Japan

I get to chat with my teacher during my free time to improve my speaking skills.

Mao Jia, China

We learn through activities and presentations. Our teachers are supportive; they guide and inspire us to speak more.

Chan Kendianne, Hong Kong

I enjoy learning English by listening to my teacher and classmates share fun facts and life experiences.

Chan Marcus, Hong Kong

Asahi's progress in his English proficiency has helped him overcome language barriers and make friends. This not only builds his confidence but also encourages him to embrace a multicultural community.

Tetsuma Sugiura,
Parent of Asahi Sugiura, Japan

Unveiling the **Mastery** of English Fluency

Have you ever suspected that there's a hidden key to mastering English fluency? **Our four decades in education** have unveiled a surprising truth:

Picture a classroom alive with the genuine buzz of native English. Here, students don't just learn; they live the language, surrounded by the rich expressions of professional speakers.

In this immersive English environment, learning is transformational. Our students emulate the ease of native speakers, achieving a command of English with the naturalness and precision you'd expect from a native.

This is the power of immersive learning, and it's an adventure we're excited to share with your child.

The ACE Approach: Reading and Speaking the Natural Way

Forget the conventional English lessons that span 11 school years. ACE offers a breakthrough.

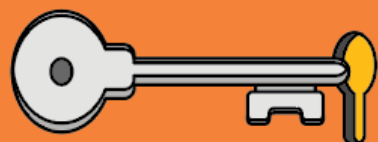

Rarely do educators get the chance to guide students from basic English proficiency to college-level mastery — but that's precisely our story. Our diverse students, from beginners to native speakers, consistently soar to new heights in fluency.

ACE's English Experience is more than a programme; it's a dynamic, inclusive journey fostering language growth, creativity, and critical thought — essential life skills cultivated in a fun, interactive environment.

TWO PATHWAYS TO EXCELLENCE

Our programme offers two distinct pathways for both Primary and Secondary School students:

1.

ENGLISH ASSESSMENT

2.

IMMERSIVE ENGLISH

For students who are just beginning their English language journey or have limited exposure to the language, this intensive programme consists of

5 HOURS of daily learning,
5 DAYS a week,

over the course of minimum of
3 MONTHS,
providing a rapid path to
English fluency.

3.

ASSESSMENT

IMMERSIVE ENGLISH

If student's proficiency has not yet reached the requisite level for their academic studies.

ADDITIONAL ENGLISH

With **4-6 HOURS** of dedicated learning
per week,

this after-school programme is designed for students who have a fairly decent foundation in English but still needs to enhance their language skills further.

Primary School Immersive English

Our unique approach sets us apart, focusing on three core principles:

BUILD

A safe learning environment serves as a crucial foundation for effective language development. Here, mistakes are not just tolerated - they are encouraged. Following our tried and trusted ACE Method, this approach sparks improvement as students feel free to express themselves without hesitation.

Small Class Sizes

So each child receives personalised attention and can actively participate in the learning process!

STRENGTHEN

We believe in putting language skills to the test in the real world. Our curriculum emphasises using English in different contexts, ensuring that students not only learn the language but also understand how to apply it practically. The learning journey is enriched by:

ACE Resources

Curated by our educators to ensure a well-rounded language development experience.

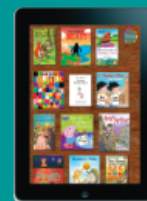

Field Trips

Exciting excursions for students to apply their language skills.

Me Books

A storytelling app that turns language learning into an adventure - with over 500 audio books!

ENHANCE

Our programme integrates cutting-edge Ed Tech Tools into our curriculum, including Scholastic Literacy Pro and Twinkl. These tools are carefully selected to provide an interactive learning journey, propelling students toward accelerated language proficiency.

Scholastic Literacy Pro

This research-based literacy platform provides students with a personalised bookshelf, allowing them to read texts matched to their abilities.

Twinkl

An educational website that offers access to over 600,000 teacher-created resources, including worksheets, lesson plans and interactive materials.

Secondary School Immersive English

In **Write Right** and **Power Presence**, students sharpen their mastery of English through critical thinking and creative expression in a real-world context that is especially relevant to them — social media.

These two classes are supplemented with field trips, Ed Tech Tools like Readworks, and coursework for Science, History, and Geography.

WRITE RIGHT Content Creation Through Social Media

Leveraging the digital world that they live in, students investigate what makes videos go viral, and try their hand at creating their own content — as a means to elevate their command of English.

POWER PRESENCE Presentation Skills Through Social Media

Students will develop the ability and confidence to effectively communicate their ideas through visual, performing, and literary arts. Their presentations provide opportunities to reflect on valuable life lessons from their own experiences and interactions with others.

EXPLORING ENGLISH THROUGH SCIENCE

with Playnovate

Playnovate is a revolutionary learning module that combines play and innovation to create a dynamic learning experience.

Designed by an education startup based in Silicon Valley, USA, Playnovate is grounded in cutting-edge neuroscience research on how students think and learn. With over 200 STEAM (Science, Technology, Engineering, Arts, and Mathematics) lessons, Playnovate serves as the cornerstone of our English Experience programme.

By immersing students in STEAM-based activities, we provide a context-rich environment where English language learning naturally unfolds. Each lesson is meticulously crafted, taking into account developmental age levels and incorporating insights from the latest neuroscience research on learning processes. As students observe, explore, ask questions, and experiment, they enhance their English language mastery - all while building creativity and problem-solving skills.
